## BEST PRACTICE TIPS

ISS45 can be programmed for automatic wine discounts.

We can set 6 bottle for 5% discount and 12 bottles for 10% discount. We can set the limits and discounts to whatever settings you would like.

We can set this up to be an automatic discount that is system based and doesn't require the cashier to initiate the discount.

We can also set the items so that they will not be discounted if on ad or tpr.
